

NEW POWER PLANS

Bondholders Have Agreed to a General Readjustment.

NEW ISSUE OF BONDS

INTEREST CHARGES WILL BE REDUCED \$153,000.

Statement Made by Le Grand Young, Attorney for the Company—Fifty Thousand Dollars to Be Expended on Salt Lake Gas Plant—Campbell Returns.

Le Grand Young, the attorney for the Union Light & Power company, reached here from New York yesterday evening. He states that the bondholders of the Union Light & Power company have practically agreed upon a plan for reducing the bonded debt and the interest charges of the company. The basis of readjustment is a reduction of the bonds from \$4,550,000 to \$3,000,000, or a wiping out of \$1,550,000 of the debt of the company. The rate of interest is to be reduced from 6 to 4 per cent, which will make a difference of \$153,000 in the annual interest charge. The new arrangement is to date from July 1, 1899.

The Joseph Bauman mortgage of \$1,500,000 on the Pioneer plant at Ogden and all the old bonds are to be taken up and a proportionate share of the new refunding issue of \$3,000,000 exchanged for them.

Mr. Young stated that all the interested parties have virtually agreed to this, and while it would require some time to work out all the details, the matter might now be considered settled on that basis.

As to the disposition of the \$750,000 of first ten bonds, the attorney was not sure, but was of the impression that they would be made to form a part of the \$3,000,000 refunding bonds.

There will be no reorganization of the Union Light & Power company, Mr. Young states. The only change will be the scaling down of the debt and the interest, and that is a matter that rests wholly with the bondholders.

The company, however, proposes to make some important improvements in its plant, and \$50,000 will be expended this fall upon these improvements. The money expended will be mainly on the Salt Lake gas plant. It is proposed to make this the best plant of the kind in the world. But all parts of the company's property are to be brought up to the highest standard, and it is felt that under the new arrangement it will be able to pay dividends on the investments.

General Manager Campbell arrived here later in the night. Mr. Hayward continued along the line to investigate the electrical plants of eastern cities.

BURT APPOINTED PATROLMAN

NAMED TO TAKE THE PLACE OF "MCGINTY" SIEGFUS.

Matter Referred to the Fire and Police Committee by the Council Last Night.

Chief of Police Hilton, at last night's meeting of the council, gave notice that he had appointed Joseph W. Burt as patrolman in place of Benedict D. ("McGinty") Siegfus.

Fernstrom moved a suspension of the rules in order to bring about a vote on confirmation.

This was opposed by Patrick and others, on the ground that the fire and police committee should look into the matter and make a recommendation. By a vote of 10 to 4 the council refused to suspend the rules, and the appointment will be hung up in committee for a week.

BEAVER'S SUMMER SCHOOL.

Superintendent Farnsworth Discusses Use of Fund.

To the Editor of The Herald: Beaver City, July 2.—In the Saturday issue of The Herald you publish under the heading "The Beaver School," an article in which the institution is made out to have been unwisely expending public school money for the purpose of making the expense of the recent union institute held at Fort. Snodgrass, which was held at the expense of the Beaver school, and which was a matter of fact, to say that there has been no such expenditure of money.

There was no such expenditure of money by me to cancel the said expense. There was not the least admission of the institute and the school. The school and State Superintendent Park was informed that there would be no such expenditure of money at the meeting of the committee, and they were submitted to the committee. This is a matter of fact, and if they had any misapprehension of the school fund, they should have been corrected. I am, however, in a position to vindicate my action, and I am, therefore, in a position to vindicate my action.

I believe the institute was conducted strictly according to the requirements of the law, and it is not my duty to interfere with the results. The financial portion of it was at least 50 per cent more than the school fund could have afforded to pay. The school fund is a fund for the school, and it is not my duty to interfere with the results.

The school fund is a fund for the school, and it is not my duty to interfere with the results. The school fund is a fund for the school, and it is not my duty to interfere with the results. The school fund is a fund for the school, and it is not my duty to interfere with the results.

FLOUR MILL PROJECT

Plan to Buy All the Plants in the State.

INDUSTRY IN A BAD WAY

MILLERS AGREE THAT SOMETHING MUST BE DONE.

Claim That Market Is Demoralized by Ruinous Competition—Three Plans Are Under Discussion—Purchase for Foreign Shipment of the Surplus Output.

A quiet move is on foot to buy up all the flour mills of Utah. This move has for its main object the control of the flour output of the state, so that it can be properly handled when arrangements are completed to ship this commodity across the Pacific. But it has other objects in view. One of these is the shutting down of the smaller and poorer mills. By this means the work of grinding would be concentrated and the cost considerably lessened. Another object of the move is to do away with the ruinous competition that is now demoralizing the local market. Price cutting has been going on for some time and the public has been living on cheap flour at the expense of the millers.

All millers agree that something must be done or the industry must suffer. When the market is so demoralized, three plans have been suggested. One, given above, the purchase outright of the mills. Another, the purchase for foreign shipment of the surplus output of the mills. Another, shipping arrangements to be made by a central organization. But each miller's business is kept separate.

It is hoped by those in the business that some plan can be agreed upon before the summer season. At that time, it is stated, shipments of Utah flour will be on the road to the Orient. One difficulty that stands in the way of any concerted action is the smallness of the mills. The largest one in the state has a capacity of but 125 barrels a day, and the total daily output of all the mills of the state will not exceed 2,000 barrels.

In these days of consolidation in all lines of industry, it will be interesting to note how the Utah millers will handle their little problem. The business is certainly in a bad way now, and the industry, it would seem, with proper management could be many times multiplied.

BRIEF LOCALS.

BANK CLEARINGS.—The bank clearings yesterday were \$228,298, as compared with \$224,247 for the corresponding day last year.

COURT HOUSE WEDDING.—Nephew Reese of Mercer and Miss Beale Back of Salt Lake City were married yesterday at the county court house by Deputy Clerk Blair.

FIXED \$125 EACH.—Thomas Foster and Blain H. Hays were arrested for creating a disturbance on a Saturday night on Thursday, were fined \$125 each by Justice Nielsen yesterday.

LAND BOARD SESSION.—The state board of land commissioners was in session yesterday at the state capitol building. The session was held in the afternoon.

AUDITOR SWAN RICH.—City Auditor Swan was unable to be at his office yesterday on account of illness. He was overworked and had prostration. His condition is not thought to be serious and he expects to be on duty again tomorrow.

POLICE COURT REVENUE.—Chris Deah of the police court reported to the city council last evening the trial of 23 cases during the month of June. The violations of the city ordinances, yielding the city a revenue of \$1,000.

APPROACH TO SALT PALACE.—The desirability of having Ninth Street from State to Main graded and graveled was known to the city council last evening by the Salt Palace association. The petition was referred to the committee on streets.

STATE LOAN.—Governor Wells and Secretary of State Hammond, constituting a majority of the council, returned to suspend the rules, and the appointment will be hung up in committee for a week.

SENSATIONAL CHARGES

Damage Suit For \$25,000 Against Dr. Colburn.

MRS. HUNTZICKER'S DEATH

ATTENDING PHYSICIAN CHARGED WITH RESPONSIBILITY.

Dead Woman's Husband Files the Complaint and Says His Wife's Death Was Caused By the Doctor's Negligence or Unskillfulness—Medical Board May Take Action.

A suit for damage in which charges of malpractice or carelessness of the grossest character are alleged will be filed this morning against Dr. E. L. Colburn.

The plaintiff in the case, Victor Huntzicker, asks for damages to the amount of \$25,000, with costs, and in his complaint makes some very sensational charges against Dr. Colburn.

The facts in the case, as alleged in the complaint, are that on Feb. 11, Dr. Colburn was employed by Mr. Huntzicker to attend his wife in childbirth, and that he performed his duties, the plaintiff says, so negligently or unskillfully that Mrs. Huntzicker died on March 1, 1899.

It is alleged that the defendant neglected to note a very marked rise of temperature, which occurred very soon after the birth, and which indicated infection. That he failed to make a proper examination to determine the cause of the rise of temperature, or to institute effective measures to counteract it.

Puerperal septicemia resulted and another physician was called in. He discovered, it is alleged, the cause of the blood poisoning and made every effort to save the life of the patient. All his efforts were unavailing, and Mrs. Huntzicker died early in May.

The complaint, which has been drawn by Mr. Huntzicker's attorneys, Booth, Hatcher and Ritchie, alleges, on the plaintiff's belief, that the death was occasioned by the carelessness, inattention or unskillfulness of Dr. Colburn.

A great deal of interest has been taken in the case among local practitioners, many of whom became familiar with the facts at the time of Mrs. Huntzicker's death. It is probable that the matter will be taken up by the medical board, and if the charges against the doctor are proven a demand that his license be taken from him will in all probability be made.

Another suit growing out of Dr. Colburn's connection with the case is now pending in Justice McMassey's court. On April 15, some few days before Mrs. Huntzicker died, Dr. Colburn's bill, amounting to \$75, was presented for payment. Five days later, an action was brought by Dr. Colburn for his collection. Mr. Booth, for Mr. Huntzicker, demurred to the complaint and asked for an amended bill. This suit is still pending in the lower court.

WANT CITY PROPERTY.

Site for a Tannery Desired—Squatter Would Sell.

The Utah Tanning company asked the city council last evening to set a price upon a strip of land on the east bank of the Jordan river and immediately west of Agricultural park as a site for the company's tannery and hide cleaning factory. The matter was referred to the committee on public grounds.

Ole Gunderson, by C. M. Nielsen, his attorney, offered to sell to the city for \$200 his squatter's right to three acres of land, use of water and improvements, situated in Parley's canon about a mile above the halfway house, between Ogden and Fort. The offer was referred to the committee on public grounds.

John Cook represented that the sluggish flow of water through the city canal had rendered a spring of water on his land in Mill Creek precinct unfit for use. His request that the spring be restored to its original condition and the dam be lowered, was referred to the committee on claims.

REPORTS OF BANKS.

Salt Lake Institutions Preparing Statement for Comptroller.

The banks of the city have just received official notifications from Comptroller of the Currency Dawes to report their condition to him, and they were busy yesterday making out their statements. This is obligatory on all national banks, but optional with state and private banks. Few banks of any kind, however, because their statements are used by the comptroller in making his annual report, and the more complete this is the more valuable it is to the whole country.

Reduced Rates to California. On occasion of meeting National Educational association at Los Angeles, Southern Pacific company announced to Los Angeles and return the following low rates:

From Ogden, \$45.
From Salt Lake City, \$16.50.
Grand Junction and intermediate points, \$47.

The Tale of a Dog.

Had Alger been explaining the intricacies of managing armies and army beef, a larger crowd could not have assembled in Timmony's court than that of yesterday afternoon. But most of the spectators were defendants. Their offenses ranged widely, but the tales told from that of a maul day tank-up to the caprices of an enthused yearling heifer and fight of a red, white and blue pup.

The calf belonged to Mrs. Niel Houston of Fifth West and First North. The dog belonged to Mrs. M. Stevens, her neighbor, who had a long and bitter feud, but never before did things come to such a climax. This calf, a playful thing, grew so happy last Sunday morning that when led to pasture it took a short cut through Mrs. Stevens' turnip patch, and in the process it ate up all the turnips and the accused took the stand.

Three surmised alfalfa fields brought the dog to Stevens' barn, and Mrs. S., at an opportune moment, seized the calf for damages.

What followed, few can say, with any respect for the truth, but yesterday Mrs. Stevens had a long and bitter feud, but never before did things come to such a climax. This calf, a playful thing, grew so happy last Sunday morning that when led to pasture it took a short cut through Mrs. Stevens' turnip patch, and in the process it ate up all the turnips and the accused took the stand.
